Technical Skills:

Javascript JQuery NodeJS React Redux Sagas Git GitHub SQL Postgres Heroku AWS

Professional Experience:

Software Development Student - (Prime Digital Academy)

Feb 2023 - July 2023

Solo Project: [Know Your Hours](#)

- Created a web application that would allow its users to keep track of their hours worked with multiple clients - As well as providing visual representations for that data.
- 'Know Your Hours' has 3 main features:
 - Logging in hours worked and miles driven for a specific client on a given day.
 - Updating, reading and deleting said logs.
 - A visual bar-graph that compiles client data and displays hours/miles-driven for clients in relation to one another to the user.
- Technologies used: Javascript, react, redux, sagas, git, github, SQL, postgres and Heroku.

Tire Technician - (Discount Tires)

Jan 2019 - Nov 2019

Working in the bay:

- Coordinated with a team of 7-9 technicians to efficiently and safely move 25-30 cars a day.
- Taught 5 new recruits how to safely operate heavy machinery and work on customer vehicles with care.
- Engaged with a minimum of 10 clients a day, on their tire inspections and concisely informed them of their tire conditions, options, and basic tire education.

Line-Man / Cashier - (Chipotle)

Jun 2018 - Dec 2018

Working on the line/floor:

- Promoted our online survey to over 100 customers during my time as a cashier.
- Actively sought out at least 10 people a day to ask about their experience, while simultaneously cleaning and restocking supplies in the dining room floor.
- Communicated line supply needs to a team of 5 when certain foods were running low.

Education

Full Stack Software Engineering Certification (Prime Digital Academy)

July 2023

- Cultivated a community of growth mindset and team-oriented software developers.
- Implemented technologies such as javascript and react to create real world applications for solo and group-client projects.
- Developed skills for public speaking, presentations, client-worker communications and the inclusion of diverse thinking.

**Accessibility Fundamentals - Disabilities, Guidelines, and Laws Certification
(Deque University)**

July 2023

- Learned the importance of web accessibility for people with disabilities and minority groups.
- Learned of ways to better implement accessibility in earlier stages of the design process.

**Semantic Structure and Navigation (WCAG 2.1) Certification
(Deque University)**

July 2023

- Learned how to use proper semantic landmarks, headings and labels to make websites more accessible to screen reader users.
- Learned multiple ways to communicate important information that may not be accessible to non-sighted users.

**Associates in Liberal Arts
(North Hennepin Community College)**

Dec 2019

- Completed the Minnesota Transfer Curriculum (40 credits) or 66% of degree all before graduating from highschool.
- Graduated with a GPA of 3.73
